

Welcome to some of the most spectacular diving you'll find anywhere in the world. We have included a selection of our favourite dive sites for you to learn more about. Most are located within the Port Stephens - Great Lakes Marine Park, an area teeming with marine life. Please use the links in the Diving Menu (left) to navigate to dive sites in the 'Seal Rocks Region' or in the 'Forster Region'. Or if you'd like to experience the real thing, just grab your gear (or ours) and join us for a dive you'll never forget!
